

- Due to coronavirus, normal school life may be disrupted, and you will need to use technology for your lessons. This is called **blended learning** as it blends different forms of learning together.
- Since we have returned to school, lessons have taken place in the classroom as normal.
- However, we need to be ready to adapt to different models of education which use technology as well as methods of learning that you are used to.

When will we need to use technology for lessons and learning? What will it involve?

There are 4 different situations where you will be using technology for your lessons and learning.

1. SELF-ISOLATING

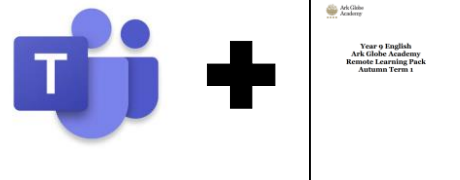

If you have any of the symptoms above, you need to stay at home for 10 days.
If someone who lives with you has symptoms, you need to stay at home for 14 days.
The only way of returning to school earlier is if you get a test and that test is negative.

- Whilst self-isolating you should access  PowerPoint **lessons on the VLE**.
- You will need to complete work in your folders and complete **home learning** that is set.
- Failure to complete home learning will result in a C2 for each home learning task.
- It may also sometimes be possible for you to join online lessons. You should look at MS Teams and join lessons when invited.

2. LARGE GROUP/YEAR GROUP ISOLATION

If someone in the year group tests positive for coronavirus, we may have to send a large number of students home to self-isolate.

- At this point, your **online lesson timetable** will begin.
- In the time outside of online lessons you should complete the **work set by your teacher**.
- Upon return, you will have a mini-assessment or test to review the work you completed at home.

3. PARTIAL LOCKDOWN/ROTA

It may be the case that the government asks us to reduce the amount of people travelling to and from school.

This will lead to a partial lockdown at school where some year groups will not be in school and will be learning from home.

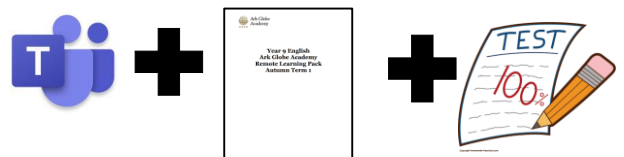

However, as it is the final year of your studies, if there is a partial lockdown, **Year 13 will always be in school.**

4. FULL LOCKDOWN

It is very unlikely that this will happen. However, in the worst case, all year groups will have to stay at home until the government says we can return.

- At this point, the **online lesson timetable** will begin.
- In the time outside of online lessons you should complete **work set by your teacher**.
- You will have an online test or assessment at the end of each 2-week block and the results will be sent to parents

Year 13 On-Line Lesson Timetable

(Lessons will use MS Teams)

	Monday	Tuesday	Wednesday	Thursday	Friday
Period 1 8:50-9:45am	Block A: History Block D Maths Business	Block E: Economics Media Business	Block B: Biology English Maths Business	Block C: Politics Business	Block A: History Block D Sociology Business
Period 2 9:45-10:40am	Block A: History Block D Maths Sociology Business	Block E: Economics Media Business	Block B: Biology English Maths Business	Block C: Politics Psychology Physics Business	Block A: History Business
Period 3 10:55-11:50am	Block B: Biology English Maths	Block C: Psychology Block A: Chemistry	Block D Sociology	Block C: Psychology Physics	Block A: Computing
Period 4 11:50-12:45pm	Block B: Biology English	Block A: Chemistry Sociology Computing	Block D Maths Sociology		Block B: Maths Block D Maths
Period 5 1:25-2:20pm	Block A: Chemistry Computing Sociology	Block C: Physics Politics	Further Maths	Block E: Economics Media Business	
Period 6 2:20pm-3:15pm	Block A: Chemistry Computing Sociology	Block C: Psychology Physics Politics	Further Maths	Block E: Economics Media Business	Block A: Sociology

- If at home (Scenario 2, or 4), you will have live lessons at the above times in your options.
- When you do not have these lessons, you should complete work set by your teachers.
- Work should be completed on paper in your folders and brought back to school when you return, unless your teacher has directed you otherwise.
- Home learning and assessments should be completed online.
- You can contact your subject teachers if you require additional support.
