Key Words

Features of a good website

When looking at a website we can evaluate it by looking at a number of key features such as:

Hyperlinks Up to date
Writing Content
Colour Pictures

Digital Tattoo

The things you share online will stay there forever and might be the first thing people notice about you, a bit like a tattoo.

With every new profile, tweet or photo you post online, you are adding to a digital tattoo. People that know you, and people who don't, can see it and learn a lot from it.

Internet vs WWW

The internet is a Framework made up of a network of computers and cables.

It can be compared to a skeleton as it is the structure of a network.

The World Wide Web (WWW) uses this network to help share information in the form of webpages.

This is like the muscles, organs and skin that sits on the skeleton and allows it to function.

URL's

URL stands for **Uniform Resource Locator**. It is the web address that is unique to a particular website or page. Each part of the URL can tell us information
